

Science

This term, we shall be learning about sound and habitats.

DT:

Moving Monsters.

Art

We will explore different media to create pictures including work based on great artists like Kandinsky.

Music

'The Carnival of the Animals' will be a focus for us to learn about how an orchestra is formed.

Maths:

12345
67890

We will be learning about place value, consolidating knowledge of 3-digit numbers and moving into 4-digit numbers; addition & subtraction; multiplication & division; and area of 2D shapes.

Geography:

With a local focus this term, we will be studying the counties around Hampshire before comparing New Forest towns and the forest itself to a European forest.

RE:

We will be discussing our understanding of the concept of devotion and its importance in Hindu worship. After, we will think about what it means to be 'holy'.

Fascinating Fact or Fabulous Fiction?

Years 3 & 4
Autumn Term

French:

We shall begin by practising our French greetings with the help of puppets! After half term, we will look at French adjectives for colour, size and shape.

Computing:

We will be using the coding program Scratch Jr to create, move and size characters. We will also look at Box Island and Lightbot.

Learning for life:

We will start off by thinking about, what makes us feel safe and included. We will then move on to looking at the online world, and how we could communicate online safely.

PE:

Following our Get Set 4 PE programme, we will work on Fundamental skills and then Ball skills. After half term, we will move onto Yoga and Outdoor Adventurous Activities.

English:

Using a variety of fact and fiction picture books as text drivers, the children will have the opportunity to write in various genres and forms including: descriptive writing, narrative and non-chronological reports. Closely linked to this will be vocabulary work, reading for pleasure and responding to texts.
