Dear Parents/Carers,

## **IMPORTANT MESSAGE - Gastroenteritis outbreak**

Please be aware that we have had an outbreak of Gastroenteritis in our school community.

We have contacted the Health Protection Team regarding this issue and they have advised that we continue to follow principles which are effective at limiting the spread of viral and bacterial infections, including norovirus.

For your own information, please refer to the attached factsheet about Gastroenteritis/Norovirus. We would ask that families help our whole school community by following this very clear guidance - thank you.

Kind regards,

Mrs Charlie Bartolomeo

Headteacher
